#### Morgan County, Illinois.

Since winter set in, up to this date, the mercury has been as high as 32, or freezing point only one or two days; and yet we have had no bad, blustering storms. A few north and south lanes, with hedges on both sides, have been blocked with drifting snow; but taken altogether, the oldest settler cannot say that he ever saw a steeper cold winter. Our greatest drawback has been a lack of water; some farmers have had to haul water for their stock, and sometimes have had difficulty in getting water to haul. The prospect for dry weather is very promising, and it is not saying too much when one expresses a fear that the coming summer may be more calamitous than last summer was. Aside from all the untoward predictions of the weather prophets, it seems to be a fact that there has been unusually light falls of snow on the mountains where our large streams rise, and floods from which reach us here in June. We have had to buy our apples, potatoes, cabbage, onions and tomatoes this year, and it looks much like we should have to do so another year.

But if Jupiter Pluvius has gone back on us, Jupiter Politicus has been indulgent. We have a copious shower of office-seekers falling just now. The Democratic County Central Committee has, for some years, used the primary election, or Crawford law, which compels candidates to make two separate canvasses—one in the party and another before the public. Yet with this drawback we have already three candidates for sheriff, four for assessor and treasurer, four for county clerk, two for county school superintendent, one for state senator, five for representative and one for county judge, or twenty in all; and the primary is not to be held till April 5th.

Several Democratic voters called upon the candidates for Representative in the State Legislature, to publicly express their views on local option in taxation, over their own name in the principal Democratic paper in the county; but, so far, not one has done so, and it is doubtful whether one of them can do so. Some of them are known to be imbued with a kind of blue-light Democracy, that would prevent them from trusting the people with such an important question. Representative Wheeler is duly scored here, even by Democrats, but his speech as printed in the Congressional Record gives a more courteous impression than newspaper reports did. As a simple matter of fact Prince Henry does not represent the German people at all, but only German royalty and junkerism. He is delegated to do nothing but to inspect and receive his brother's private yacht, built in an American shipyard. Wheeler was fully justified in brusquely scubbing the exhibitions of imperial and aristocratic taste and tendencies growing too common here, and as shown not only in this matter of Prince Henry's junket trip, but also in the appointment of special representatives to be present at the coronation of Mr. Wettin. We heartily endorse an editorial in the *Waechter und Anzeiger* of Cleveland: "Therefore, honor and praise to the man who has dared in the American House of Representatives, so vigorously and freely to speak in such manner as to place the Republican principle over against the Monarchical principle." Congressman Kern represents a strong American district in Southern Illinois, but he, too, stood openly and boldly for American democracy and against royal toadyism. Roosevelt was only complying with common courtesy to allow his daughter, at the request of the German Emperor, to break a bottle of beer on the stern of the yacht at the childish ceremony of sliding it down the ways into the water; and he will be acting only the gentleman if he receive Henry in a polite and friendly, but unofficial, manner; but beyond that he will merit censure, and he'll get it too. The cost of sending three men to England, in June, should come out of private purses and not out of the people's taxes, for they do not represent the people.

WM. CAMM.

Alexander, Feb. 24, 1902.

#### Would Smash the Club

If members of the "Hay Fever Association" would use Dr. King's New Discovery for Consumption, the club would go to pieces, for it always cures this mania.—and Asthma, which kind baffles the doctors—it wholly drives from the system. It conquers Grip, saves little ones from Croup and Whooping Cough and is positively guaranteed for all throat and Lung troubles. 50c, \$1.00. Trial bottles free at Arcadia Valley Drug Co.

#### Mexican Bull Fights.

In Mexico the young men of fashion do not get up amateur circuses or private theatricals, but amateur bull fights. All the "high life" of the Mexican capital went out the other day to the bull ring to see young men of the "swagger" set take part in one of these entertainments. The bulls were full of fight, and the young men cold winter. Our greatest drawback has been a lack of water; some farmers have had to haul water for their stock, and sometimes have had difficulty in getting water to haul. The prospect for dry weather is very promising, and it is not saying too much when one expresses a fear that the coming summer may be more calamitous than last summer was. Aside from all the untoward predictions of the weather prophets, it seems to be a fact that there has been unusually light falls of snow on the mountains where our large streams rise, and floods from which reach us here in June. We have had to buy our apples, potatoes, cabbage, onions and tomatoes this year, and it looks much like we should have to do so another year.

After the account of the bull fight follows a list of distinguished and fashionable people present, just as we publish a list of the people at the first night of an opera at the Metropolitan.

#### Remarkable Cures of Rheumatism.

From the *Indicator*, Rutherfordton, N. C.: "The editor of the *Indicator* has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the shoulder from which he suffered excruciating pain for ten days, which was relieved with two applications of Pain Balm, rubbing the parts afflicted and realizing instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the liniment on retiring at night, and getting up free from pain. For sale by all druggists.

#### An Inconvenient Document.

Senator Hoar, in a recent speech in the senate, referred to the fact that an order had been issued by the Philippine commission prohibiting the reading of the Declaration of Independence in the Philippine Islands. The senator further pointed out that by the law promulgated by that commission it was a penitentiary offense to read the Declaration of Independence. The Declaration is said to be barred from the Philippines on the ground that it is an inconvenient document. Is this not a curious charge to make against that document? It sets forth certain self-evident truths, and discloses the inalienable rights of man. Are we as a nation in a position to punish people for believing in that Declaration or in reading it aloud to others? Imperialism has certainly brought us into a strange situation, and one is forcibly reminded of the time when a Christian monarch felt it necessary to suppress a publication which contained extracts from the Bible condemning monarchy. If we are going to have imperialism we will find it embarrassing to preach free government here while we practice imperialism elsewhere.—*The Commoner*.

#### The Vice of Nagging.

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c.
